

Emergency Notifications in Three Clicks

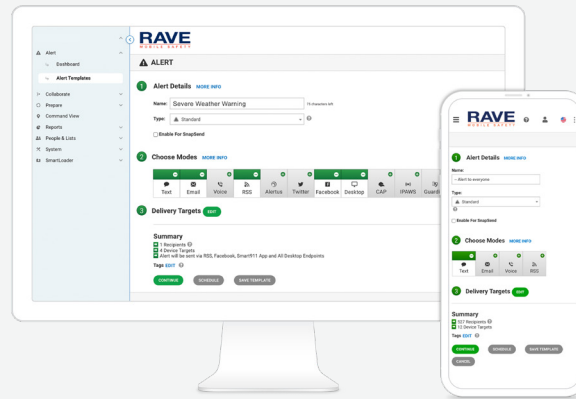

Rave Alert provides the ability to send mass notifications and/or targeted messages to connect and inform your employees, patients, and visitors. Backed by public safety grade infrastructure, Rave sends billions of notifications a year and is trusted by thousands of hospitals and healthcare facilities.

With pre-built templates, multilingual capabilities, and a mobile-friendly interface, Rave Alert is guaranteed to perform when seconds count and provide:

- 1 Strong Engagement With Your Employees
- 2 Quick and Reliable Messaging
- 3 Enhanced Internal Response Coordination

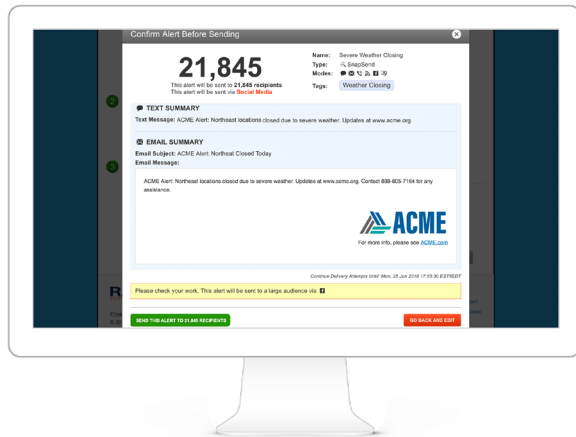

GUARANTEED CRITICAL MESSAGING

- Simple-to-use, easy-to-deploy, and high-performing solution
- 2 billion messages sent per year with 99.999% service availability
- Keep your staff engaged - provide information and resources during critical situations or everyday events
- Send all messages through a single launch point
- Reach a wider audience via opt-in keywords for short or long term events

EASY-TO-USE INTERFACE

- Administrators up and running in less than two hours
- Simplify data management for community and contacts
- Instant notifications via text, voice, email, desktop, social media, and more
- Segment and target users based on department, location, and more
- Customize interface based on role or needs
- One-click conference bridging and real-time reporting

BEST IN CLASS SUPPORT

- Dedicated 24-7, 365 day support
- Access to Rave product experts for advice or general questions at every stage
- Training sessions, self-service portal, marketing resources and more available

“ It did exactly what I wanted it to do. It immediately did its job. With other systems, we have had delays of several minutes when sending critical messages. The fact that we had nearly instantaneous notifications sent was a tremendous test that Rave Alert passed with flying colors! I can't be any happier with how it worked for us.”
